

# Top Tips for Project Management Success

*...and some reason why some projects go wrong*

## **Why IT Projects Fail**

1. Unrealistic expectations
2. Overly complex design
3. Scope creep
4. Lack of clear ownership
5. Poor team building
6. Teams disempowered

## **Tips for IT Project Success**

1. Keep it SIMPLE
2. Small projects, frequent implementations
3. Never believe a supplier
4. Ban 'not invented here' syndrome
5. Consign MS Project to nearest dustbin
6. Insist on SLAs with financial penalties
7. Trust the team
8. Give the team clear outcomes
